# Carlos Henrique

Full Stack Developer & UI/UX Designer

Professional Summary

I am a junior Full Stack Developer and UI/UX designer, 19 years old, actively freelancing and volunteering on various projects. Passionate about technology and design, I continually strive to improve my skills to contribute to innovative and intuitive digital experiences. My career objective is to achieve financial stability and make significant contributions to software development teams, with a salary expectation ranging from R$ 706 to R$ 1,412.

Project Experience

Excellence Conciergerie & Excellence Cleaners

I was tasked with redesigning the Excellence Conciergerie website, which was facing issues with its previous developer. Initially built using Elementor on WordPress, the client was dissatisfied with the animations and previous design. To meet expectations, I redesigned the site from scratch in Figma and developed it using Next.js, incorporating various animations for a more dynamic and engaging user experience.

Skills: Next.js, Figma, Tailwind CSS, GSAP (GreenSock Animation Platform), CSS, i18next (Internationalization), Lenis Scroll, Next SEO (Search Engine Optimization), Email Integration (SMTP), Formik/Yup (Forms and Validation), Web Accessibility (WCAG), Clean Code, Framer Motion

Ronaldo Coelho Nutri

Volunteered via 99freelas to develop a website for nutritionist Ronaldo Coelho. Used Nuxt 3 for server-side rendering (SSR) to improve search engine optimization (SEO). Unfortunately, the project was canceled due to client dismissal.

Skills: Nuxt 3, Figma, Vue 3, CSS, Tailwind CSS, Clean Code, Email Integration (SMTP), Web Accessibility (WCAG), Clean Code
